SUMMARY

A Bioinformatics student with a passion for blending technology and biology to redefine healthcare. Skilled in backend development and innovative problem-solving, I thrive in leadership roles, turning challenges into breakthroughs and shaping the future of health-tech innovation.

EDUCATION

Bachelor of Computer Science (Specializing in Bioinformatics)

Faculty of Computers and Artificial Intelligence • Fayoum University • 2026 • 3.5GPA

CERTIFICATIONS

Short Specialization

ALX Africa • 2024

- Completed a 12 Month ALX Software Engineering Program with Specialization in Back-End.

Bioinformatics Bootcamp

Genomac Institute Inc. • 2024

- Completed a 2-day intensive Bootcamp covering essential bioinformatics and genomics topics, including **NCBI Data Collection**, **PCR Primer Design**, **In Silico Cloning**, **ORF Prediction**, and **DNA Hybridization**.
- Gained hands-on experience in utilizing bioinformatics tools, designing primers, and applying research methods to modern biological challenges.

Bioinformatics

GSK 4edu • 2023

- Certified in using and developing Bioinformatics tools

EF Set English certificate 64/100 C1 Advanced

EF Standard English Test (EF SET) • 2021

- Read both factual and literary texts with ease, recognizing differences in style and tone.
- Comfortable in most situations that require full comprehension.
- Rarely confused or at a loss for the meaning of words and phrases.

ISEF Alexandria

Intel ISEF • 2017

- participated in the national competition with my engineering project

EXPERIENCE

Web Developer Trainee

WeOryx

August 2024 – October 2024, Egypt

- Designed and developed responsive websites using HTML, CSS, Bootstrap, and PHP to meet client requirements.
- Debugged and maintained existing codebases, enhancing overall system efficiency.
- Developed and maintained dynamic web pages with a focus on functionality and user experience.

PROJECTS

Wyana online shopping

WeOryx • github.com/Nairaalmelegy/wayana-shop.git • September 2024 – October 2024

- Developed both frontend and backend for an e-commerce site, using **HTML**, **CSS**, **Bootstrap**, and **PHP** for the backend.
- Focused on building a responsive UI and server-side logic to handle transactions and user interactions.

MediDeliver

ALX Africa • github.com/Nairaalmelegy/medi-deliver.git • September 2024 – October 2024

- Developed a medical delivery web application for ordering online, inventory management, and providing real-time updates.
- Used **Next.js**, **Tailwind CSS**, **Node.js**, and **MongoDB Atlas** for a seamless user experience and efficient backend integration.
- Integrated **Stripe** for secure payment processing and third-party delivery API for order tracking.

VistaVault

ALX Africa • github.com/Nairaalmelegy/VistaVault_Repo.git • April 2024 – June 2024

- Designed scalable architecture.
- Developed a responsive UI with **Next.js** and **React**.
- Implemented secure APIs with **Node.js**.
- Designed and managed SQL and NoSQL databases to handle user data and transactions.

AirBnB Clone – Command Line Interface

ALX Africa • github.com/Nairaalmelegy/AirBnB_clone.git • May 2024 – May 2024

- Object Management: Developed commands for creating, retrieving, updating, and deleting objects, including User and Place entities

INVOLVEMENTS

Embedded Systems Trainee

Fayoum University • IEEE • November 2023 – May 2024

Climathon conference

Fayoum university • December 2022 – December 2022

- Focused on new techniques and strategies to address climate change and COVID-19.
- Explored innovative solutions and advancements in environmental and public health challenges.
- Contributed to discussions on climate action and sustainability.

ITC– International Telecommunication Conference

Air defense college • Air defense college • July 2022 – July 2022

- Gain insights into the latest developments in Telecommunications and defense techniques.
- Participated in a student competition with R.B.W project.
- Engaged with judges and other participants to discuss the project's impact and potential improvements.

SKILLS

Power BI

TypeScript

GitHub for version control

Database Management Systems

Backend development: python, SQL, Django framework

problem solving

Leadership

Project management: Trello

Microsoft project

Front End: HTML, CSS, JavaScript, React
